

THE DESIGN COLLABORATIVE

LUNCH + LEARN | INDUSTRY CONVERSATION

A versatile, white-boxed space ready for your creative input.

We're creating The Design Collaborative, a smaller-scale design ecosystem where interior designers can meet with clients, work with samples, discover vendors, and connect with other professionals - all under one roof.

What would make our space valuable to you?

Come share your ideas, meet other design professionals, and help us shape what The Design Collaborative could become.
